Sommario/riassunto

This captivating book contains 31 case studies that focus on what is said and done in actual counseling sessions with LGBTQQI clients, including diagnosis; interventions, treatment goals, and outcomes; transference and countertransference issues; other multicultural considerations; and recommendations for further counseling or training. Experts in the field address topics across the areas of individual development, relationship concerns, contextual matters, and wellness. The cases presented include coming out; counseling intersex, bisexual, and transsexual clients; couples, marriage, and fam
