Descrizione fisica	1 online resource (260 pages) : digital, PDF file(s)
Soggetti	Language and languages - Grammars Comparative linguistics
Lingua di pubblicazione	Portoghese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	In this study I present an investigation on the types of complete sentences, distributed in a hierarchy between more or less verbal / nominal, based on real data of conversation. It is a work on the grammar of the complementation of Brazilian Portuguese, more specifically on grammatically available constructions, based on certain types of verbal fitting predicates, in relation to the role that these constructions play in the complete structures of Portuguese.
