Soggetti	Sports - Sociological aspects Sports - Developing countries Sports - Economic aspects Sports - Political aspects Peace-building
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"The role of sport in development initiatives has grown dramatically over the last five years, now finding a place in the UN's millennium development goals. In Sport and Development for Peace, Simon Darnell outlines the most recent sociological research on the role of sport in development initiatives. The book analyses the relationship between sport and international development and looks at what this reveals about socio-political economy. It addresses a gap in the literature by focusing on issues of politics, power and culture, particularly looking at volunteer experience, mega-sporting events and sporting celebrity in the context of development. Darnell questions the belief that sport can offer a 'solution' to enduring development issues. Drawing on the latest empirical research, the book is a thorough and timely analysis of the social and political implications of tying sport to development."-- Bloomsbury Publishing.
