Nota di contenuto	Ancient liberties -- The labours of history -- Uneasy alliance : liberty and the nation -- Conserving histories : chivalry, science and liberty -- The end of history? Scott, his precursors and the violent past.
Sommario/riassunto	"The British historical novel has often been defined in the terms set by Walter Scott's fiction, as a reflection on a clear break between past and present. Reinventing Liberty challenges this view by returning us to the rich range of historical novels written in the late eighteenth-century. It explores how these works participated in a contentious debate concerning political change and British national identity. Ranging across well-known writers, such as William Godwin, Horace Walpole and Frances Burney, to lesser-known figures, including Cornelia Ellis Knight and Jane Porter, 'Reinventing Liberty' reveals how history becomes a site to rethink Britain as 'land of liberty' and positions Scott in relation to this tradition."--
