Sommario/riassunto	<p>Queer lives remain at the margins of most academic inquiry into domestic violence. When same-sex violence is considered, it is most commonly as an ""added on,"" without close attention to the specificity and meaning of violence within the lives of lesbian/ gay/ bisexual/ transgender/Two-Spirit and queer people (LGBTQ). This edited volume seeks to change this discourse by bringing together the most innovative research about intimate partner violence that is specific to the lives of LGBTQ people. Sommario/riassunto	This monograph demonstrates why humanism began in Italy in the mid-thirteenth century. It considers Petrarch a third generation humanist, who christianized a secular movement. The analysis traces the beginning of humanism in poetry and its gradual penetration of other Latin literary genres, and, through stylistic analyses of texts, the

extent to which imitation of the ancients produced changes in cognition and visual perception. The volume traces the link between vernacular translations and the emergence of Florence as the leader of Latin humanism by 1400 and why, limited to an elite in the fourteenth century, humanism became a major educational movement in the first decades of the fifteenth. It revises our conception of the relationship of Italian humanism to French twelfth-century humanism and of the character of early Italian humanism itself. Sommario/riassunto

Introducing a revolutionary new quantitative approach to hybrid securities valuation and risk management To an equity trader they are shares. For the trader at the fixed income desk, they are bonds (after all, they pay coupons, so what's the problem?). They are hybrid securities. Neither equity nor debt, they possess characteristics of both, and carry unique risks that cannot be ignored, but are often woefully misunderstood. The first and only book of its kind, *The Handbook of Hybrid Securities* dispels the many myths and misconceptions about hybrid securities and arms you with a quantitative,
