| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Bibliographic Level Mode of Issuance: Monograph |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Foreword x Preface xi Chapter 1: Introduction 1 Challenges and opportunities 3 On quality 4 Background 5 A note on terminology 7 Notes 9 Chapter 2: Beyond CP Snow 11 Quantitative and qualitative studies 12 Improved understanding and quality 13 Drawing on commonalities 14 Context dependence and quantification 18 Interpretation and context 21 Notes 23 Chapter 3: Questioning to learn and learning to question 24 Part I: Interdisciplinary expectations (Questions 1 to 3) 25 Part II: Transacademic aspirations (Questions 4 and 5) 26 Part III: Academic rigour (Questions 6 to 10) 27 Notes 29 Chapter 4: Why do you conduct interdisciplinary work? 30 Where do you position yourself on the reflection scale? (Question 1) 30 To what end are you using knowledge from different disciplines? (Question 2) |

37 What makes your work interdisciplinary? (Question 3) 42 Notes 46
Chapter 5: Why do you interact with society? 48 Academic knowledge
and decision-making 48 Who participates in which part of the study
and how? (Question 4) 51 Why do you interact with society? (Question
5) 56 A word of warning: Don't be snobbish 58 Notes 59 Chapter 6:
Rigorous but not rigid 61 On quality assessment 63 Confusing form
and credibility - an example 64 Communication 67 Notes 73 Chapter 7:
Marking your playground 74 Framing 75 Aim 79 Operationalizing the
aim 82 Confusing interdisciplinarity with "Everything" 84 Notes 85
Chapter 8: Evidence that holds for scrutiny 86 How or why? 87
Common procedures 90 Mixing various types of empirical evidence 100
Notes 100 Chapter 9: Anchoring your canoe 101 Clarifying your
sources 102 Anchoring your frame 103 Anchoring your method 106
Notes 110 Chapter 10: Analysis 111 Defining "analysis" 112 Clarifying
the own, the new 115 Relevant literature - your canon 116 Common
knowledge 119 Original research 119 Textbooks 122 The style of
recognized scholars 124 Passive and active voice 126 Notes 129
Contents ix Chapter 11: Beauty is in the eye of the beholder 131
Headings 132 Where do I place the reflections? 135 Where do I
describe the context? 136 References 137 Notes 141 Chapter 12: Being
interdisciplinary 142 Creating an open and respectful climate 143
Hierarchies that impair 144 Humbleness and courage 147 Outstanding
studies 148 Dialogue, feedback and how to manage supervisors 149

Sommario/riassunto

Environmental issues are inherently interdisciplinary, and environmental academic programmes increasingly use an interdisciplinary approach. This book presents a core framework for conducting high quality interdisciplinary research.
