Livello bibliografico	Monografia
Sommario/riassunto	La science des mœurs, la morale - et l'ethique qui les fonde - ont oriente l'activite sociologique des son commencement. Celle presentation procede a un bref rappel des positions theoriques. Elle est surtout destinee a montrer comment s'exprime et se traduit en pratique, aujourd'hui, la demande d'ethique. Elle souligne le fait que c'est la definition de l'homme, dans la modernite actuelle, qui reste en attente de precision. rom its very beginning, sociological research has been orientated towards the study of behavioural patterns, morals -and the ethics upon which they are based. This article briefly recalls a number of theoretical points of view. It is mainly intended to demonstrate how the demand for ethics is today finding its expression and its practical application. It underlines the fact that it is the definition of man, in the present modernity, which is still needing to be further specified.
