| Sommario/riassunto | Here is collected an impressive corpus of reviews and bibliographic notes published over a period of fifty years, an exercise in critical rigor that has accompanied the scientific activity of Giovanni Tabacco without interruption. Written with a wide range of interests and with particular attention to the themes of power and culture, these pages constitute a precious commentary on the developments of medieval art in the twentieth century.edited by G glielmotti, Paola Here is an impressive corpus of reviews and bibliographic notes published over a period of fifty years, an exercise in critical rigor that has accompanied the scientific activity of Giovanni Tabacco without interruption. Written with a wide range of interests and with particular attention to the themes of power and culture, these pages constitute a precious commentary on the developments of medieval art in the twentieth century. |
