Sommario/riassunto

Does planning in contested cities inadvertently make the divisions worse? The 60s and 70s saw a strong role of planning, social engineering, etc but there has since been a move towards a more decentralised 'community planning' approach. The book examines urban planning and policy in the context of deeply contested space, where place identity and cultural affinities are reshaping cities. Throughout the world, contentions around identity and territory abound, and in Britain, this problem has found recent expression in debates about multiculturalism and social cohesion. These issues are mos
