

1. Record Nr.	UNINA9910133649003321
Titolo	Interventional techniques in uro-oncology // edited by Hashim Uddin Ahmed ...[et. al.]
Pubbl/distr/stampa	Oxford ; ; Hoboken, NJ, : Wiley-Blackwell, 2011
ISBN	1-283-40713-2 9786613407139 1-4443-2990-1 1-4443-2989-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (222 p.)
Altri autori (Persone)	AhmedHashim Uddin
Disciplina	617.4/60597
Soggetti	Genitourinary organs - Endoscopic surgery Laparoscopic surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Interventional Techniques in Uro-oncology; Contents; Contributors; Preface to the first edition; 1 Rationale for minimally invasive interventional techniques in urological cancer; 2 Brachytherapy for prostate cancer; 3 High-intensity focused ultrasound; 4 Prostate and renal cryotherapy; 5 Radiofrequency ablation; 6 Photodynamic therapy; 7 Perspectives on nanotechnology; 8 Imaging in diagnosis and staging of urologic cancers: magnetic resonance imaging; 9 Imaging in diagnosis and staging of urological cancers: ultrasound, CT, and PET 10 Imaging after minimally-invasive interventions in urological cancersIndex; Color plate section can be found facing page
Sommario/riassunto	Minimally invasive surgical techniques are moving into the mainstream of urological practice. Even less invasive techniques, some of which can involve no use of the knife whatsoever, are rapidly being developed and implemented for treating urological cancer. Interventional Techniques in Uro-oncology is the first text to cover these techniques in total and provides a comprehensive review of the state-of-the-art minimally invasive interventions. This well-illustrated reference provides the basic science behind each technique before explaining when and how best to perform them. It examin
