Nota di contenuto	Part 1 Democratic differences between China and the West -- Consumer liberalism -- Part 2 Analysing Chinese anger -- Anger as a display of nationalism -- Chinese anger at the label of censorship -- Chinese anger with Western media's assumptions of political change -- Part 3 Stabilizing China's polity -- Nationalism as a consumer-orientated product -- The current political framework in China.
Sommario/riassunto	While Cyber-Nationalism in China examines fundamental questions surrounding the political implications of the Internet in China, it avoids simply predicting that the Internet does or does not lead to democratization. Applying a theoretical approach based on the Foucauldian notion of governmentality, the book builds on current scholarship that has attempted to move beyond examining the dynamics of the socio-cultural and -political use of new media technologies.
