Sommario/riassunto	What was distinctive about the founding principles and practices of Quakerism? In George Fox and Early Quaker Culture, Hilary Hinds explores how the Light Within became the organizing principle of this seventeenth-century movement, inaugurating an influential dissolution of the boundary between the human and the divine. Taking an original perspective on this most enduring of radical religious groups, Hinds combines literary and historical approaches to produce a fresh study of

The future of offices as an investment

Sommario/riassunto

This is the first book that looks at how offices and office markets in
cities have changed over the last 30 years. It analyses the long-term
trends and processes within office markets, and the interaction with the
spatial economy and the planning of cities. It draws on examples
around the world, and looking forward at the future consequences of
information communication technologies and the sustainability agenda,
it sets out the challenges that now face investors. The traditional
business centres of cities are losing their dominance to the brash new
centres of the 1980's and 1990's, as
