

1. Record Nr.	UNINA9910134940303321
Titolo	2015 IEEE Third International Conference on Mobile Services : MS 2015 : proceedings : 27 June - 2 July 2015, New York, New York, USA // Onur Altintas, Jia Zhang, editors
Pubbl/distr/stampa	Los Alamitos, California : , : Conference Publishing Services, IEEE Computer Society, , 2015
ISBN	1-4673-7284-6
Descrizione fisica	1 online resource (xxii, 484 pages) : illustrations
Disciplina	384.53
Soggetti	Cell phone systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Annotation Wireless and ubiquitous connectivity have enabled mobile computing and Internet access on the go as a life enhancing and indispensable experience of modern life More than 50 billion devices, in more than 200 device types, will likely be connected to the Internet by 2020 as integral components of a new generation of high value application services for consumers and enterprises API defined mobile services have become essential ubiquitous services consumption and delivery enablers for many industries and government organizations worldwide The 2014 IEEE International Conference on Mobile Services (MS) aims at providing an international forum that is dedicated to exploring different aspects of mobile services (from business management to computing systems, algorithms, and applications) and to promoting technological innovations in research and development of mobile services, including, but not limited to, wireless & sensor networks, mobile & wearable computing, mobile enterprise & eComme.
