

1. Record Nr.	UNINA9910135279203321
Titolo	ANSI N42.43-2006, Standard : American National Standard Performance Criteria for Mobile and Transportable Radiation Monitors Used for Homeland Security // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, NY, USA : , : IEEE, , 2007
ISBN	0-7381-5563-2
Descrizione fisica	1 online resource (ix, 41 pages) : illustrations
Disciplina	539.752
Soggetti	Radioactivity - Measurement Radiation dosimetry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The operational and performance requirements for transportable and/or mobile radiation monitors used in homeland security applications are specified in this standard. Transportable radiation monitors are designed to be transported to a location and used for a specific task or for a specified period of time and do not require permanent mounting platforms. This standard also addresses radiation detection systems that can be carried on a person such as backpack-type systems.
