

1. Record Nr.	UNINA9910135340903321
Titolo	IEEE Standard Specifications for Surge Protectors Used in Low-Voltage Data, Communications, and Signaling Circuits // IEEE
Pubbl/distr/stampa	New York, N.Y. : , : IEEE, , 2009
ISBN	0-7381-6090-3
Edizione	[(Revision of IEEE Std C62.64-1997).]
Descrizione fisica	1 online resource (80 pages) : illustrations
Collana	IEEE Std ; ; C62.64-2009
Disciplina	621.3
Soggetti	Low voltage integrated circuits
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Surge protectors for application on multiconductor and coaxial, balanced or unbalanced, data, communications, and signaling circuits with voltages less than or equal to 1000 V rms or 1200 V dc are covered. These surge protectors are multiple-component series or parallel combinations of one or more nonlinear elements and zero or more linear elements. The tables of typical performance values provide a means of comparison among various surge protectors. They also provide a common engineering language beneficial to the user and manufacturer of surge protectors used in low-voltage data, communications, and signaling circuits.
