

1. Record Nr.	UNINA9910135369903321
Titolo	IEEE Std 1284-1994 : IEEE Standard Signaling Method for a Bidirectional Parallel Peripheral Interface for Personal Computers // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, New York : , : IEEE, , 1993
ISBN	0-7381-2749-3
Descrizione fisica	1 online resource (112 pages)
Disciplina	621.317
Soggetti	Microcomputers - Standards Computer interfaces - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Superseded by IEEE Std 1284, 2000 Edition A signaling method for asynchronous, fully interlocked, bidirectional parallel communications between hosts and printers or other peripherals is defined. A format for a peripheral identification string and a method of returning this string to the host outside of the bidirectional data stream is also specified.
