| Sommario/riassunto | First collective effort of specialists, dealing in depth with the issue of human resources in health in Argentina, Brazil, Paraguay and Uruguay. The book addresses the integration process and reflects on the situation in the field of human resources in these countries, with a focus on training, professional practice and the labour market - crossing and analysing data, comparing them - in the search for the establishment of a real picture. It also includes the Treaty for the Constitution of a Common Market (the Treaty of Asunción) and the Regulation of the Mercosur Joint Parliamentary Commission. |
