Lingua di pubblicazione	Portoghese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	It deals with the system of legal institutions and social protection policies, with the central objective of introducing the reader to the Latin American standard of Social Security, analysing its origins, form and development trends. The author does not shy away from the controversy: she accepts the academic challenge of building a theoretical point of view with enough strength to face the inevitable - and, for the debate, instigating - questions. Finally: mandatory reading for those who want to understand and interfere in the direction of Security in Latin America, whatever their professional backgrounds and political convictions.
