| Note generali           | Title in Portuguese and English.  |
| Sommario/riassunto      | Edited by historian Jaime Benchimol and biologist and science historian Magali Romero Sá, it is a tribute to the researcher and his career. Adolpho Lutz was the forerunner of modern health campaigns and epidemiological studies involving, above all, cholera, typhoid, bubonic plague and yellow fever. This volume focuses on zoology. |
