Edizione [First edition (1994-11-15).]

Descrizione fisica 1 online resource (25 pages)

Collana aIEEE Std ; ; 1465-1998

Disciplina 005.10685

Soggetti Computer software - Quality control
Computer software - Quality control - Standards

Lingua di pubblicazione Inglese

Formato Materiale a stampa

Livello bibliografico Monografia

Sommario/riassunto Quality requirements for software packages and instructions on how to test a software package against these requirements are established. The requirements apply to software packages as they are offered and delivered, not to the production process (including activities and intermediate products, such as specifications).
