

1. Record Nr.	UNINA9910135461203321
Titolo	ISO/IEC/IEEE 29148:2011(E) : ISO/IEC/IEEE International Standard - Systems and software engineering -- Life cycle processes -- Requirements engineering / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Geneva, New York : , : IEEE, , 2011
ISBN	0-7381-6591-3
Descrizione fisica	1 online resource (vii, 83 pages) : illustrations
Disciplina	005.1
Soggetti	Software engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	ISO/IEC/IEEE 29148:2011 contains provisions for the processes and products related to the engineering of requirements for systems and software products and services throughout the life cycle. It defines the construct of a good requirement, provides attributes and characteristics of requirements, and discusses the iterative and recursive application of requirements processes throughout the life cycle. ISO/IEC/IEEE 29148:2011 provides additional guidance in the application of requirements engineering and management processes for requirements-related activities in ISO/IEC 12207 and ISO/IEC 15288. Information items applicable to the engineering of requirements and their content are defined. The content of ISO/IEC/IEEE 29148:2011 can be added to the existing set of requirements-related life cycle processes defined by ISO/IEC 12207 or ISO/IEC 15288, or can be used independently. Keywords: buyer, characteristics, concept of operation, concepts of operations document, ConOps, contract, customer, operational concept, OpsCon, prototyping, requirement, software requirements specification, supplier, SyRS, system, system requirements specification.
