| Titolo | ISO/IEC/IEEE 29119-3:2013(E) . Part 3 Test documentation : Software and systems engineering Software testing // Institute of Electrical and Electronics Engineers |
| Pubbl/distr/stampa | Geneva, New York : , : IEEE , , 2013 |
| ISBN | 0-7381-8601-5 |
| Descrizione fisica | 1 online resource (viii, 127 pages) : illustrations |
| Disciplina | 005.1 |
| Soggetti | Software engineering |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Sommario/riassunto | <p>The purpose of the ISO/IEC/IEEE 29119 series of software testing standards is to define an internationally-agreed set of standards for software testing that can be used by any organization when performing any form of software testing. ISO/IEC/IEEE 29119-3 includes templates and examples of test documentation. The templates are arranged within clauses reflecting the overall test process description structure in ISO/IEC/IEEE 29119-2, i.e. by the test process in which they are being produced. Annex A contains outlines of the contents of each document. Annex B contains mappings ISO/IEC/IEEE 29119-2. Annex C contains an overview of the examples. Annexes D to S contain examples of the application of the templates. Annex T provides mappings to existing standards. The Bibliography for this part of ISO/IEC/IEEE 29119 is at the end of the document. ISO/IEC/IEEE 29119-3 supports dynamic testing, functional and non-functional testing, manual and automated testing, and scripted and unscripted testing. The documentation templates defined in ISO/IEC/IEEE 29119-3 can be used in conjunction with any software development lifecycle model. Keywords: 29119, 29119-1, software testing, Test Planning Process, Test Plan, verification and validation.</p> |
