

1. Record Nr.	UNINA9910135514103321
Titolo	IEEE Std 317-1983 : IEEE Standard for Electric Penetration Assemblies in Containment Structures for Nuclear Power Generating Stations // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1982
ISBN	0-7381-0678-X
Descrizione fisica	1 online resource
Disciplina	621.483
Soggetti	Nuclear power plants
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Requirements for the design, construction, qualification, testing, and installation of electric penetration assemblies in nuclear containment structures for stationary nuclear power generating stations are presented. Quality control and quality assurance requirements, and requirements for purchaser's specification are included. The requirements for external circuits that connect to penetration assemblies and for operation, maintenance, or periodic testing after installation are not covered.
