

1. Record Nr.	UNINA9910135764903321
Titolo	ANSI/IEEE Std 935-1989 : IEEE Guide on Terminology for Tools and Equipment to Be Used in Live Line Working // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, NJ : , : IEEE, , 1989
ISBN	0-7381-0369-1
Descrizione fisica	1 online resource (62 pages)
Disciplina	621.30289
Soggetti	Electric apparatus and appliances - Safety measures Electrical engineering - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Terminology for tools and equipment used in live line working is given to permit identification of the tools and equipment and to standardize their names. Detailed definitions are not given for all the terms used in live line working, only the necessary details, without indications of their components and their methods of use are provided. The following are covered: insulating sticks; universal to ol fittings; insulating covers and similar assemblies; bypassing equipment; small individual hand tools; personal equipment; equipment for positioning a worker; handling and anchoring equipment; measuring and testing equipment and hydraulic and miscellaneous equipment.
