

1. Record Nr.	UNINA9910135781803321
Titolo	American National standard guide for construction of open-area test sites for performing radiated emission measurements
Pubbl/distr/stampa	New York : , : IEEE, , 1988
ISBN	0-7381-4158-5
Descrizione fisica	1 online resource (34 pages)
Disciplina	539.2
Soggetti	Radiation - Measurement - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Provides information that is useful in the construction of an open area test site (OATS) used to perform radiated emission measurements in the frequency range 30-1000 MHz. The key recommendations for site selection, ground plane, instrumentation and equipment under test (EUT) services, and all-weather covers are described.
