

1. Record Nr.	UNINA9910135788203321
Titolo	ANSI/IEEE Std 516-1987 : IEEE guide for maintenance methods on energized power lines // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , 1988
ISBN	0-7381-4224-7
Descrizione fisica	1 online resource
Disciplina	621.319
Soggetti	Electric lines
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This guide provides general recommendations for performing maintenance work on energized power-lines. It is not intended to include all of the proven, practical methods and procedures; however, these selected comprehensive recommendations are based on sound engineering principles, engineering safety considerations, and decades of field experiences by many utilities. Included are technical explanations as required to cover: certain laboratory testing of tools and equipment; field maintenance and care of tools and equipment; work methods for the maintenance of energized lines and for persons workings in the vicinity of energized lines.
