

1. Record Nr.	UNINA9910135872603321
Titolo	IEEE Std 1210-2004/Cor 1-2014 (corrigendum to IEEE Std 1210-2004) : IEEE standard tests for determining compatibility of cable-pulling lubricants with wire and cable - corrigendum 1 // IEEE
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 2014
ISBN	0-7381-9021-7
Descrizione fisica	1 online resource
Disciplina	537.24
Soggetti	Dielectrics Electric resistance
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Criteria and test methods for determining the compatibility of cable-pulling lubricants (compounds) with cable jacket or other exterior cable covering are described in this standard. Cable-pulling lubricants are used to lower the friction on cable as it is pulled into conduit, duct, or directionally bored holes. Compatibility is important because lubricants should not negatively interact with the cables they lubricate. Compatibility of lubricants with a variety of common cable coverings is considered.
