

1. Record Nr.	UNINA9910135890103321
Titolo	IEEE Std 1120-1990 : IEEE Guide to the Factors to Be Considered in the Planning, Design, and Installation of Submarine Power and Communications Cables // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1990
ISBN	0-7381-0802-2
Descrizione fisica	1 online resource
Disciplina	745.4
Soggetti	Design - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Replaced by 1120-2004. IEEE Std 1120-1990, IEEE Guide to the Factors to Be Considered in the Planning, Design, and Installation of Submarine Power and Communications Cables, provides a checklist of factors to be considered in the planning, design, and installation of power and communications cables in a submarine environment. It does not attempt to provide complete cable design criteria.
