

1. Record Nr.	UNINA9910135898903321
Titolo	IEEE Std 1031-1991 : IEEE Guide for a Detailed Functional Specification and Application of Static VAR Compensators / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1992
ISBN	0-7381-2589-X
Descrizione fisica	1 online resource (1 page)
Disciplina	624.068
Soggetti	Specifications Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	General information that should be considered during procurement of a static VAR compensator (SVC) is provided. The information is intended to assist in the preparation of a procurement specification. Environmental data, power system characteristics, and main characteristics of the SVC are covered.
