

1. Record Nr.	UNINA9910135974503321
Titolo	Drug Discovery from Mother Nature // edited by Subash Chandra Gupta, Sahdeo Prasad, Bharat B. Aggarwal
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (VIII, 410 p. 47 illus., 22 illus. in color.)
Collana	Advances in Experimental Medicine and Biology, , 0065-2598 ; ; 929
Disciplina	615.321
Soggetti	Immunology Food - Biotechnology Nutrition Pharmacology Food Science Pharmacology/Toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cinnamon and Chronic Diseases -- Silymarin and its Role in Chronic Diseases -- Eugenol and its Role in Chronic Diseases -- Catechins and its Role in Chronic Disease -- Capsaicin and its Role in Chronic Diseases -- Diallyl Sulfide and its Role in Chronic Diseases -- Lupeol and its Role in Chronic Diseases -- Gingerol and its Role in Chronic Diseases -- Potential Use of Flavopiridol in Treatment of Chronic Diseases -- Plumbagin and its Role in Chronic Diseases.
Sommario/riassunto	Second comprehensive volume focuses on anti-inflammatory nutraceuticals and their role in prevention and therapy of various chronic diseases. Food and drug administration (FDA) approved drugs such as steroids, non-steroidal anti-inflammatory drugs (NSAIDS), statins and metformin have been shown to modulate inflammatory pathways, but their long-term intake has been associated with numerous side effects. Thus dietary agents which can modulate inflammatory pathways in humans, are likely to exhibit enormous potential. Leading experts describe the latest results of anti-inflammatory nutraceuticals and their role in prevention and therapy of

various chronic diseases.
