

1. Record Nr.	UNINA9910135975403321
Titolo	Vascular Surgery : A Global Perspective // edited by Alan Dardik
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2017
ISBN	9783319337456
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XXIV, 385 p. 114 illus., 79 illus. in color.)
Disciplina	617.413
Soggetti	Vascular surgery Cardiology Interventional radiology Medical jurisprudence Vascular Surgery Interventional Radiology Forensic Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Aneurysms in North America -- Aneurysms in South America -- Aneurysms in Asia -- Aneurysms in Europe -- Aneurysms in the Middle East -- Peripheral Arterial Occlusive Disease in North America -- Peripheral Arterial Occlusive Disease in South America -- Peripheral Arterial Occlusive Disease in Asia -- Peripheral Arterial Occlusive Disease in Europe -- Peripheral Arterial Occlusive Disease in the Middle East -- Carotid Disease in North America -- Carotid Disease in South America -- Carotid Disease in Asia -- Carotid Disease in Europe -- Carotid Disease in the Middle East -- Access for Hemodialysis in North America -- Access for Hemodialysis in South America -- Access for Hemodialysis in Asia -- Access for Hemodialysis in Europe -- Access for Hemodialysis in the Middle East -- Venous Disease in North America -- Venous Disease in South America -- Venous Disease in Asia -- Venous Disease in Europe -- Venous Disease in the Middle East.
Sommario/riassunto	Vascular Surgery: A Global Perspective provides the first review and comparison of the diversity of vascular surgery practice around the

world. The book is grouped according to common vascular diseases such as aneurysmal and occlusive arterial disease, as well as venous and lymphatic disease and dialysis access. Each major disease topic includes multiple chapters written by expert specialists from around the world, each discussing their local approach to the disease and its treatment. Similarly, the status of vascular surgery practice is addressed, including discussion of the influence of payment systems on practice, patient access to the internet for information, training paradigms, and the legal system including malpractice. This textbook provides the first worldwide summary of the care of patients with vascular disease and will be of interest to a wide audience including vascular surgeons, vascular medical specialists, cardiologists, radiologists, internists, and family practice physicians.
