

1. Record Nr.	UNINA9910135978103321
Titolo	IEEE Std 450-1972 : IEEE Recommended Practice for Maintenance, Testing, and Replacement of Large Stationary Type Power Plant and Substation Lead Storage Batteries // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York : , : IEEE, , 1972
ISBN	0-7381-8952-9
Descrizione fisica	1 online resource (11 pages)
Disciplina	621.312424
Soggetti	Storage batteries - Standards Storage batteries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Proper maintenance will prolong the life of a battery and will aid in assuring that it is capable of supplying its design power requirements. A good battery maintenance program will serve as a valuable aid in determining the need for battery replacement. Station battery maintenance should be performed by personnel knowledgeable of batteries and the safety precautions involved.
