

1. Record Nr.	UNINA9910136014703321
Titolo	IEEE Guide for Collecting and Managing Transmission Line Inspection and Maintenance Data // IEEE
Pubbl/distr/stampa	New York, N.Y. : , : IEEE, , 2011
ISBN	0-7381-6551-4
Descrizione fisica	1 online resource (x, 50 pages) : illustrations
Collana	IEEE Std ; ; 1808-2011
Disciplina	621.3
Soggetti	Electric lines - Carrier transmission
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Reference information to assist electric utilities and their contractors with the development of computer-based means for collecting and managing transmission line inspection and maintenance data and associated asset information is provided. The guide provides a high level overview of key principles and considerations learned through experience that will help ensure common pitfalls are avoided and enhance the usability of systems. It is not intended to provide an exhaustive discussion of the many details and specifics that must be accounted for when designing and developing a system for an individual utility's application and needs.
