Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 2016.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and indexes.
Sommario/riassunto	Spanish and Portuguese were Romance languages spoken in the Iberian Peninsula and were brought to America as the languages of the colonisers in the 16th century. Along the centuries, the two languages developed specific properties that distinguish them from the varieties spoken in the Old World. This work offers a rich comparative material which helps us in the understanding of linguistic change and variation.
