

1. Record Nr.	UNISA996280500203316
Titolo	IEEE Std 1125-1993 : IEEE Guide for Moisture Measurement and Control in SF6 Gas-Insulated Equipment // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1993
ISBN	0-7381-0803-0
Descrizione fisica	1 online resource
Disciplina	693.89
Soggetti	Moisture - Measurement
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Guidelines for moisture level measurement, moisture data interpretation, and moisture control in gas-insulated transmission class equipment (GIE) are provided.

Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: Contextualising Death After Police Contact -- Chapter 1. Police, State and Society -- Chapter 2. Regulating Death after Police Contact -- Chapter 3. Constructing Verdicts in the Coronial System -- Chapter 4. IPCC: Fit for Purpose? -- Chapter 5. Discursive Practices and Systems -- Chapter 6. Accountability, Governance and Audiences -- Conclusion.
Sommario/riassunto	This book investigates death after police contact in England and Wales in the twenty-first century. It examines how regulatory bodies

construct accountability in such cases. Cases of death after police contact have the potential to cause deep unease in society. They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life. People who are from Black, or Minority Ethnic backgrounds, or have mental health issues, or are dependent on substances are disproportionately more likely to die in these cases, and this emphasises the sensitive nature of many of these deaths to society. Deaths after Police Contact examines police legitimacy and the legitimacy of police regulators in these cases. The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases, rather than attempting to learn lessons from annual trends and patterns that might prevent future deaths. It will be of great interest to scholars and upper-level students of policing and criminal justice.
