

1. Record Nr.	UNINA9910136076603321
Autore	Qiu Meikang
Titolo	Mobile applications development with Android technologies and algorithms / / Meikang Qiu, Wenyun Dai, and Keke Gai, Pace University, New York City, New York, USA
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , [2017] ©2017
ISBN	1-4987-6189-5 1-315-36757-2 1-4987-6187-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (320 pages) : illustrations, tables
Disciplina	005.3
Soggetti	Application software - Development Mobile apps
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"A Chapman & Hall book."
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	section 1. Mobile app design and development skills -- section 2. Advanced mobile app optimizations -- section 3. Mobile app techniques in emerging technologies -- section 4. Appendices.
Sommario/riassunto	The rapid development of mobile technologies and wireless networks has enabled a broad implementation of mobile applications, which have turned into one of the main streams for next generation computing technology. The industry demands a large number of intelligent engineers who can master updated mobile techniques and app development skills. This graduate-level textbook is designed to present state-of-the-art techniques in this area, including advanced algorithms, embedded systems, development mechanisms, security issues, novel mobile app architecture, mobile cloud-computing paradigms, and relevant techniques.
