CONTRIBUTIONS -- 2. THE FUTURE OF THE UNITED STATES AS ILLR -- 3. POLICY IMPLICATIONS -- 4. FINAL THOUGHTS -- BIBLIOGRAPHY -- APPENDIX.

Sommario/riassunto

'Brother, Can You Spare a Billion?' explores how and why the US has regularly acted, often alongside the IMF, as an international lender of last resort by selectively bailing out foreign economies in crisis. Daniel McDowell highlights the unique role that the US has played in stabilizing the world economy from the 1960s through 2008.
