Sommario/riassunto	<p>Recent Advances in Surgery 35 is the latest volume in a series that reviews current topics in general surgery and in its major subspecialties. Divided into five sections, this volume includes chapters on perioperative care, cardiopulmonary exercise testing for abdominal surgery, breast reconstruction, facial paralysis, a range of gastrointestinal subjects and the diabetic foot, as well as a review of randomised trials and meta-analyses in surgery. With contributions from recognised experts, the majority from throughout the UK, this new volume covers all the latest developments within surgery, providing excellent revision material for professional examinations, and helping consultant surgeons keep up to date across the specialty. Key points Latest volume in series bringing postgraduates and consultants up to date with the latest developments in general surgery and its subspecialties Includes review of randomised clinical trials and meta-analyses in surgery Contributions from recognised experts, mainly in the UK Includes more than 80 images and illustrations</p>
