

1. Record Nr.	UNINA9910136362603321
Titolo	IEEE Std 515-1983 : IEEE Recommended Practice for Electrical Resistance Heat Tracing // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, NJ, USA : , : IEEE, , 1982
ISBN	1-5044-0789-X
Descrizione fisica	1 online resource (30 pages)
Disciplina	621.402
Soggetti	Resistance heating Electric heating
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This recommended practice provides recommendations for the testing, design, installation, and maintenance of electrical resistance heat tracing in general industries as applied to mechanical piping and equipment. The electrical resistance heat tracing is in the form of series-heating cables and parallel-heating cables. The recommendations also include test criteria to determine the suitability of heating cables which are utilized for these applications.
