

1. Record Nr.	UNINA9910136395603321
Titolo	IEEE Std No 62-1958 : IEEE Recommended Guide for Making Dielectric Measurements in the Field // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, NJ, USA : , : IEEE, , 1957
ISBN	1-5044-0404-1
Descrizione fisica	1 online resource (32 pages)
Disciplina	537.2
Soggetti	Dielectric measurements Electrostatics - Measurement
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The primary purpose of this Guide is to present and discuss the applicability and limitations of the various measurement methods now in use, or available, for testing the electrical insulation of power apparatus in the field. The purpose of this Guide is also to consider the special conditions encountered in field testing, and their effect on instruments, methods and procedures for making tests on the electrical insulation of power apparatus.
