

1. Record Nr.	UNINA9910136406803321
Autore	McDougall Stuart J
Titolo	Central control of autonomic functions in health and disease [[electronic resource] /] / topic editors Stuart J. McDougall, Heike Münzberg, Andrei V. Derbenev and Andrea Zsombok
Pubbl/distr/stampa	Frontiers Media SA, 2015 France : , : Frontiers Media SA, , 2015
ISBN	9782889194759 (ebook)
Descrizione fisica	1 online resource (93 pages) : illustrations
Collana	Frontiers Research Topics
Soggetti	Disease management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The field of autonomic neuroscience research concentrates on those neural pathways and processes that ultimately modulate parasympathetic and sympathetic output to alter peripheral organ function. In the following ebook, laboratories from across the field have contributed reviews and original research to summarize current views on the role of the brain in tuning peripheral organ performance to regulate body temperature, glucose homeostasis and blood pressure.
