Record Nr. UNINA9910136505903321 **Titolo** AIEE No 88-1962: AIEE Proposed Standard for Definitions of Terms Associated With Telemetering / / IEEE [Place of publication not identified]:,: IEEE, , 1962 Pubbl/distr/stampa **ISBN** 1-5044-0456-4 Descrizione fisica 1 online resource Disciplina 621.379 Soggetti Telemeter Remote control Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Sommario/riassunto New definitions of terms associated with telemetering are proposed only when considered necessary and where no known suitable definition exists. No effort has been made to include all terms defined in existing formal glossaries, such as American Standard Definitions of Electrical Terms, ASA C42. It is realized that many terms defined in other publications apply to telemetering as well, and it is expected that these documents will assist in the standardization of telemetering nomenclature.
