Sommario/riassunto	When Mike Kent started teaching over half a century ago there was no national curriculum, no testing and schools were inspected, briefly, once in a blue moon. Mike has watched primary education spiral through enormous changes over the decades. Some changes have been worthwhile. Many have not. But if he is unhappy with a new initiative, or irritated by an incomprehensible directive from the men in suits, he'll do what he does best... pick up his pen and share it with his readers in a witty, whimsical way. This collection of articles from Mike Kent's popular weekly column in the TES covers a whole
