

1. Record Nr.	UNINA9910136767803321
Titolo	ANSI/ IEEE C37.5-1979 : IEEE Guide for Calculation of Fault Currents for Application of AC High-Voltage Circuit Breakers Rated on a Total Current Basis / / IEEE
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 1979
ISBN	1-5044-0500-5
Descrizione fisica	1 online resource
Disciplina	621.3
Soggetti	High voltages Electric power distribution
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This standard is a guide for the calculation of fault currents for the application of AC high-voltage circuit breakers rated on a total current basis. This guide is intended for general use in the application of circuit breakers. Familiarity with other American National Standards applying to circuit breakers is assumed, and provisions of these standards are indicated herein only when necessary for clarity in describing application requirements.
