

1. Record Nr.	UNINA9910136774103321
Titolo	Drug utilization research : methods and applications // editors, Monique Elseviers [and twelve others]
Pubbl/distr/stampa	Chichester, West Sussex ; ; Hoboken, NJ : , : John Wiley & Sons Incorporated, , 2016
ISBN	1-118-94977-3 1-118-94976-5
Descrizione fisica	1 online resource (914 p.)
Collana	THEi Wiley ebooks
Disciplina	615.1072/4
Soggetti	Drug development Medicine - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Title Page; Copyright; List of contributors; Acknowledgements; Advisory board; Reviewers; About the companion website; Part 1: Introduction; Chapter 1: Introduction to drug utilization research; Room for improvement in drug utilization; The history of drug utilization research; Definition and delineation; Skills needed to be a drug utilization researcher; Areas of inquiry in drug utilization research reflected in this book; Part 2: Methodology; Chapter 2: Study designs in drug utilization research; Introduction; Quantitative and qualitative research Observational studies: from descriptive to analytical approaches Study designs for descriptive drug utilization studies; Study designs for analytical drug utilization studies; Experimental and quasiexperimental study designs in drug utilization research; Other study designs for drug utilization research; Chapter 3: Primary data collection for drug utilization research; Introduction; Identifying primary data sources for drug utilization research; Collecting valuable primary data in drug utilization research; Instruments and forms for primary data collection in drug utilization research Modes of primary data collection for drug utilization research Ethical considerations; Conclusion; Chapter 4: Secondary data sources for drug utilization research; Introduction; Sales data; Electronic health records;

Pharmacy dispensing data; Reimbursement data; Patient registries; Secondary analysis of population health survey data; Record linkage in drug utilization research; Privacy, confidentiality and security; Data quality; Chapter 5: Classification systems for drugs and diseases; Introduction; ATC; Other drug classification systems
Other classification systems relevant for drug utilization research
Linkage of classification systems; Chapter 6: Measurement units of drug utilization; Introduction; DDD: definition and general considerations; Principles of DDD assignment; Alterations and misuse of DDDs; Other aggregate measures for prescribing; Other drug utilization metrics; Use of drugs in animals; How to report aggregated drug use; DDDs for special population groups; Chapter 7: Individual-level drug utilization analyses; Introduction; General principles; Epidemiological measures; Other measures
Strengths and limitations of individual-level statistics
Chapter 8: Measurement of drug expenditure; Introduction; Definitions and perspectives; Price-related units of pharmaceutical expenditure; Methodological challenges related to pharmaceutical expenditure; Chapter 9: Basic statistical methods in drug utilization research; Introduction; Why we need statistical methods in drug utilization and health services research; Use of population data versus sample data; Types of variables; Describing data with descriptive statistics
Investigating the difference between the means and medians of numerical variables

2. Record Nr.	UNIORUON00219438
Titolo	El libro de las batallas : narraciones épico-caballerescas / estudio literario y edición del texto por Alvaro Galmés de Fuentes
Pubbl/distr/stampa	Madrid, : Gredos, c1975. 2 v. ; 20 cm.
ISBN	84-249-3469-5
Disciplina	808.83
Soggetti	LETTERATURA MOZARABICA - SEC. XIV-XVII MANOSCRITTI MOZARABICI Poemi cavallereschi
Lingua di pubblicazione	Spagnolo
Formato	Materiale a stampa
Livello bibliografico	Monografia
