

1. Record Nr.	UNINA9910136800203321
Autore	Manuel Menendez-Gonzalez
Titolo	Neuropsychology and neuropsychiatry of neurodegenerative disorders / / edited by: Manuel Menéndez-González and Tania Álvarez-Avellón
Pubbl/distr/stampa	Frontiers Media SA, 2016 [Lausanne, Switzerland] : , : Frontiers Media SA, , 2016 ©2016
Descrizione fisica	1 online resource (190 pages) : illustrations; digital file(s)
Collana	Frontiers Research Topics Frontiers in Aging Neuroscience
Soggetti	Nervous system - Degeneration - Physiopathology Nervous system - Degeneration - Diseases Nervous system - Degeneration - Research Geriatric neuropsychiatry Nervous System Diseases - Aged
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	This Research Topic aims to update the knowledge on neuropsychology and neuropsychiatry in neurodegenerative disorders . A special interest is placed on providing a thorough understanding of underlying brain damage in a range of neurodegenerative disorders (such as Parkinson's and Alzheimer's diseases, among many others), as well as their behavioral consequences. Studies on both neuropsychological and neuropsychiatric disturbances of neurodegenerative disorders will be covered; including description of new tests, correlation of findings with biomarkers and correlation of findings with neuropathology, as well as the implication of neuropsychological and neuropsychiatric research in therapeutic techniques and potential interventions.
