Soggetti	Waterloo, Battle of, Waterloo, Belgium, 1815
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Captain William Siborne became an ensign in the 9th Foot in 1813 and was sent to France in 1815 as part of a battalion despatched to reinforce Wellington's army. A notable topographer, after the events that year he was commissioned to create a scale model of the Battle of Waterloo, for which he carried out extensive research, writing to officers in the allied forces present to obtain information. The subsequent correspondence amounted to the largest single collection of primary source material on the subject ever assembled. After he had completed his model, which is today on public display in the National Army Museum in London, he used the mass of information he had gathered to produce his History of the Waterloo Campaign, which was at the time the most detailed account of the operations of 1815 and is still considered a classic work on the subject. Siborne's history of Waterloo, the latest addition to Frontline's growing Napoleonic Library, is essential and gripping reading for all those who are interested in how this famous battle was fought and won. AUTHOR: The son of Captain Benjamin of the 9th (East Norfolk) Regiment of Foot, Siborne joined the regiment on 9 September 1813. In August 1815 he joined Wellington's army in France. In 1819 he published his first book. This led to him being commissioned to produce his model of the Battle which is still in the National Army Museum. He died on 9 January 1849. SELLING POINTS: * A detailed and highly-regarded classic account of the events of the Waterloo campaign. * Accounts from every branch of the British</p>

Army. * It was the letters sent in to the author whilst researching his model that formed the basis of this book.
