Sommario/riassunto	Originally published in 1969, this book by Osvaldo Arias collects the fundamentals of his undergraduate report presented at the University of Chile (Chillán). Almost 50 years after its first appearance, Arias's work is a fundamental part not only of the history of the Chilean labor organization, but, at the same time, a valuable antecedent for the history of the press and communications in our country. With slight adjustments and correction of misprints, this new edition fully conforms to the task done by its author.
