

1. Record Nr.	UNINA9910137016403321
Titolo	DCNET 2014 : proceedings of the 5th International Conference on Data Communication Networking : Vienna, Austria, 28-30 August, 2014 // Mohammad S. Obaidat, editor
Pubbl/distr/stampa	Setubal, Portugal : , : SCITEPRESS, , 2014
ISBN	989-8565-94-2
Descrizione fisica	1 online resource (various pagings) : illustrations
Disciplina	004.6
Soggetti	Computer networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The purpose of DCNET 2014 is to bring together researchers, engineers and practitioners interested on communication networking between computer systems or other digital devices Computer networking is a combination of knowledge related to the areas of telecommunications, computer science, information technology and or computer engineering Data communication networks rely heavily upon the theoretical and practical application of these scientific and engineering disciplines DCNET encompasses a diversity of aspects, from network architecture and protocols, to network management, monitoring and control, performance analysis, sensor nets, services over networks, LANs and WANS, to higher education in the data communication field.
