

1. Record Nr.	UNINA9910137399403321
Autore	Maranas Costas D.
Titolo	Optimization methods in metabolic networks // Costas D. Maranas, Ali R. Zomorodi
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley, , 2016 ©2016
ISBN	1-119-18901-2 1-119-18891-1
Descrizione fisica	1 online resource (281 p.)
Disciplina	572.4
Soggetti	Metabolism - Regulation Metabolism - Testing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Mathematical optimization fundamentals -- Linear programming and duality theory -- Flux balance analysis and LP problems -- Modeling with binary variables and MILP -- Thermodynamic analysis of metabolic networks -- Resolving network gaps and growth prediction inconsistencies in metabolic networks -- Identification and construction of pathways to target metabolites -- Computational strain design -- NLP fundamentals -- NLP applications in metabolic networks -- MINLP fundamentals and applications.
